

Winter Prep Checklist for Mobile Home Residents

- Seal drafts around windows and doors
- Inspect and repair home skirting
- Insulate exposed pipes
- Check roof and clean gutters
- Replace or clean furnace filters
- Test thermostat functionality
- Check smoke and carbon monoxide detectors
- Stock emergency supplies (flashlights, batteries, food, water)
- Prepare space heaters and review safety guidelines
- Reverse ceiling fans to clockwise direction
- Open curtains during the day for sunlight and close them at night
- Repair gaps under the home and reinforce insulation
